

Relationships Australia - NT Statement The Voice Referendum

Relationships Australia Northern Territory (RA-NT)
unreservedly support the vision laid out in the Uluru
Statement from the Heart, for Voice, Treaty, and Truth.

We stand firmly behind the call for a constitutional amendment that paves the way for an Aboriginal and Torres Strait Islander Voice, empowering First Nation's individuals to actively participate in shaping both present and future issues that impact their lives.

This stance harmonises seamlessly with our organisational values, in upholding human rights, promoting inclusivity and diversity, and dedicated to fostering social justice within our communities.
